WHAT'S DISCORD?

Discord is an online, social platform used for video chat, live streaming, media sharing, and more!

It's easy and free to download. This class has it's own private server which includes a class space, (like Zoom but better) & different areas for music, video sharing, community chats, and beyond.

We will meet weekly on the Discord server for class. Once the class is paid for, I will give you access!

WHERE DO I SIGN UP?

Email AnnaEastActs@gmail.com with “**Let's Dance!**” as the subject line.

Please include which class package you would like to start with. You will receive a reply with both payment & class preparation info!
